

We are pleased to announce that ISYS Search Software has agreed to provide all CJA panel attorneys in the United States with a free license of its enterprise search tool. Valued at \$99 per seat, this special version of the software is being offered only to CJA panel attorneys, enabling them to index and search through their local data collections.

The Federal Public Defender Offices (FDO) system has had a national contract with ISYS since 2006. A standard installation on FDO computers, this software allows legal teams to search through discovery, create brief banks, and assist in basic organization of data. Its information indexing capabilities provide great functionality in searching both electronic documents and materials provided in hard copy that are subsequently scanned and converted to a text searchable format, especially since it can search and retrieve information in more than 200 different file types. Importantly, ISYS is a user friendly software program which provides immediate results and utility for even the novice computer user.

As electronic discovery in federal criminal matters continues to grow in volume as well as in the variety of formats, ISYS is a useful tool for CJA panel attorneys who are faced with the daunting task of organizing and searching through their case material.

About ISYS Search Software

ISYS Search Software is a global leader in embedded search and federated access solutions. The ISYS enterprise search suite enables the virtual aggregation of corporate knowledge, providing a single point of access to information that resides across workstations, files shares, intranets, databases and enterprise systems. Backed by more than 15,000 customer organizations worldwide, ISYS offers government, commercial enterprises and independent software vendors a highly scalable platform for secure information access, management and reuse. Additional information can be obtained by phone at +1 800 992 4797 and via the Web at <http://www.ISYS-search.com/>.

For technical support, you can contact support-us@isys-search.com. If you have questions about other ISYS Search products, you can contact Michael Blaszak with ISYS Search Software at (303) 689-9998 x229 or michael.blaszak@isys-search.com.

If you have any questions regarding the utilization of ISYS within a CJA panel attorneys' office, please contact either Alex Roberts or Kelly Scribner of the National Litigation Support Team at 510-637-3500, or by email: alex_roberts@fd.org, kelly_scribner@fd.org.
